REMARKS

In response to the Notice of Drawing inconsistency dated December 27, 2006, applicant has amended the application to overcome the drawing inconsistency. In particular, it appears that the correct Figure 18 was not filed in the application consequently the reference to Figure 18 from the Brief Description of the Drawings has been deleted as well as the reference to the old Figure 18 in the specification. In order to maintain consistency in figure numbers, former Figure 16a, which had been incorrectly labeled as 16b in the drawings filed on March 30, 2006, has been renumbered as Figure 17 and former Figure 17 has been renumbered as Figure 18. Amendments to the specification have been made to correct the figure numbering.

It is respectfully submitted that the amendment adds no new matter to the application.

Respectfully submitted,
